

ABOUT US

Private Space Medical is a leading mental health clinic dedicated to supporting children, teens, and adults across a wide range of conditions including ADHD, depression, anxiety, OCD, early psychosis, PTSD, and insomnia. We also offer learning and educational assessments, family and couples therapy, and tailored behavioral interventions.

Our experienced team of psychiatrists, psychologists, and therapists hold qualifications from top universities in Singapore and abroad, and acquired extensive clinical training and experience in renowned hospitals like SGH and KKH. Their skills and dedication have earned them recognition and awards both locally and internationally.

Committed to compassionate and personalized support, we provide guidance in a welcoming and private setting where clients feel empowered on their journey toward Positive Change and Purposeful Lives.
